

Cartridge King of Kansas, Inc.

100% GUARANTEE

- Cartridge King Gold Crown and remanufactured cartridges contain the highest quality components available and include an extensive selection of cartridges that are remanufactured by Kansans with disabilities in an STMC Certified facility.
- Use of our cartridges or cartridge remanufacturing service will not result in the cancellation of your manufacturer's warranty. Federal law prohibits ANY company or person from requiring you to purchase only their product.
- The guarantee does not cover cartridges which are empty, expired, abused, misused, or tampered with in any way.
- Our Gold Crown and remanufactured toner and inkjet cartridges are guaranteed to be free from defects in material and workmanship and will provide quality service until the toner or ink within the cartridge is substantially depleted. Print quality will decline as the amount of toner or ink becomes low within the cartridge, which indicates it is time for a replacement Cartridge King cartridge.
- When installed and used according to the enclosed instructions, your Cartridge King cartridge will provide exceptional service in your printing device. If any Cartridge King product is responsible for causing damage or other problems with your printing device, contact Cartridge King immediately to investigate and remedy the problem at our expense.
- Cartridge King of Kansas will warranty up to 12 months from purchase date for defective Cartridge King of Kansas toner cartridges, and 6 months from purchase date for defective Cartridge King of Kansas inkjet cartridges.
- Defective cartridges will be replaced, at no charge. An assigned Return Authorization Number (RA#), obtained by contacting Cartridge King of Kansas, must accompany ALL returns. Please include samples of the problem you are incurring along with the return.

Trusted Since 1994
